- 10 The puzzle of Uranus
- 11 The quest for a second new planet
- 12 The discovery of Neptune, 1846
- 12 The credit for Neptune
- 13 Neptune before discovery
- 13 After Neptune's discovery
- 14 Pluto's discovery, 1930
- 14 Pluto's name
- 15 Not the predicted planet
- 15 The first of a new family?
- 16 Transneptunian Cubey-One
- 16 More transneptunians, and larger
- 17 The apple of discord
- 18 Sizes
- 20 The demotion controversy
- 21 Ten thousand
- 21 And yet
- 22 Spacing of the orbits; the Titius-Bode Law
- 24 Pioneers and Voyagers to the outer giants
- 25 New Horizons to Pluto
- 26 Missives into the Galaxy

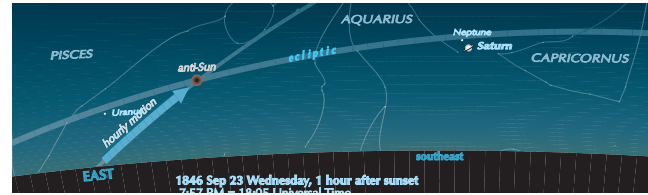

## 27 Uranus and Neptune

- 28 Uranus's moderate orbit
- 28 Neptune's circular yet wavy orbit
- 29 Neptune's speed, oppositions, inclination, and nodes
- 29 Retrograde paths and fivefold conjunctions
- 29 Geocentric motion
- 30 Occultations by the Sun
- 30 How Uranus and Neptune appear to eye and telescope
- 31 Uranus's more-than-sidewise rotation
- 32 Seasons on Uranus
- 32 Neptune's rotation
- 33 Clusters of Uranus events
- 34 Uranus by Moonlight
- 34 Neptune by Moonlight
